

TNW-A32

Wireless Lavalier Microphone

User Manual

Made in China

Introduction

Thanks for choosing our product.

This product is a smart wireless microphone that provides professional-grade recording output. Plug and play, no app required. Multiple uses: it can be used in online live broadcast, video Vlog shooting, program interview, recording, video teaching and other occasions.

This product consists of three parts: charging box, microphone transmitter and receiver

(as shown in the figure below, some models have no charging box, based on the actual object)

Charging box

Microphone transmitter

Receiver

How to use

Step 1: Long press the power button on the microphone, and the connection indicator light will flash, indicating successful power on.

Step 2: Connect one end of the receiving end to the phone interface

Step 3: The indicator light for the connection between the receiver and transmitter remains on, indicating a successful connection.

Open the camera live streaming app on your phone and use the microphone to listen.

Note: oppo/vivo/iqoo/realm brand mobile phones can be used normally only when they go to the settings (search"OTG"-turn on OTG power supply)
