

**TNW | V7 Pro**  
**Instruction For Use**

## Operation Instruction

Open the movable back clip of cooler to fix it on the back of phone.

**Tips:** The freezing conditions are that the ambient temperature is below 25°C and a 5V 3A power adapter is used for freezing. When the ambient temperature is between 24 and 26°C, the water droplets in the cooling area need to be wiped to freeze. If the above conditions are not met, freezing will be difficult or even fail to achieve the freezing effect!

## Specification Parameters

Product Name: V7 Pro Back Clip Semiconductor Phone Cooler

Product Model: V7 Pro

Product Material: ABS+Aluminum Alloy+Ceramics+Silicone

Working Power: 5V/3A

Product Size: 41mm\*63mm\*88mm

Product Weight: 98g

Package Dimension: 95mm\*90mm\*45mm

Fan Speed: 5500R/Min

Product List: Phone Cooler\*1+Type-C Cable\*1

MADE IN CHINA
